For HUMANA HMO Patients ONLY

Understanding your insurance and the referral process:

If the insurance plan you have selected is a HMO/managed care plan.

1. Your Primary Care Physician (PCP) will be able to see the total picture of your overall health. This allows your provider to make the best decisions in managing your health and wellbeing.

2. While your Primary Care Provider (PCP) can provide most of your care, if you do need a specialist your PCP manages the care you receive from these healthcare specialists within the network.

3. Your Primary Care Physician (PCP) needs to issue a referral for you before you see any specialist.

4. Your Primary Care Provider (PCP) will choose a specialist that will best suit your needs within your HMO Network.

5. Within the HMO there are a select number of Providers that have demonstrated outstanding care and improved outcomes.

6. Unlike PPO plans, care under an HMO plan is covered only if you see a provider within that HMO's network.

7. The referral process serves as a way for your PCP and your specialist to communicate with each other. When a referral is issued for you to see a specialist, your PCP will inform the specialist of the reason(s) for the referral as well as the goal(s) for the visit. In other words, your PCP will help coordinate your visit; the referral helps ensure you receive the proper care when seeing a specialist.

Thank you for joining our practice!
